COMPLETEVIEW REMOTE CERTIFICATION TRAINING

Salient, a leader of video management systems, is offering instructor-led, remote certification training. This innovative training allows individual students to participate in classroom training from their own home or office location. Each student will access a Salient Lab Computer through web conferencing (remote classroom) and learn to install and configure the entire suite of CompleteView Enterprise applications. The training will be interactive with access to live IP cameras, with hands-on experience, resulting in a fully functional CompleteView system that records and plays back video.

- Upon successful completion, students earn CompleteView certification valid for 2 years
- Time required: 12 hours over two days
- Scheduled breaks provided during the day, including 30 minutes for lunch

To ensure a successful training, students must meet the minimum Technical and Learning Environment Requirements before registering.

Requirements to be completed 24 hours in advance of class:

1. **Technical Requirements**
   - One Computer per student, with up to date virus protection
   - Two (2) video displays – one will use TeamViewer and the other will use Zoom
   - i5 processor or better
   - Minimum of 4MB of memory
   - High-speed broadband Internet with a minimum of 10Mbps down, and 3Mbps up
     - o Check your internet speed at SpeedTest
   - Install the current version of TeamViewer
     - o Download from TeamViewer
     - o Select Basic and Personal
   - Zoom instructions for day of training
     - o Follow the link in the reminder email & enter Your Name and Your email address
     - o Follow the on screen instructions to join the Zoom meeting
     - o The best option for Audio is to call in using a phone

2. **Learning Environment Requirements**
   - Quiet and interruption-free learning environment for the duration of the training class
   - Telephone or a mobile phone - a speaker or headset is encouraged
